Summary

Motivated and responsible Computer Engineering student with strong technical skills in software development, application design, and problem-solving. Adept at working with new technologies, managing complex tasks, and delivering results under pressure. Eager to apply academic knowledge in a challenging internship or entry-level role while contributing effectively to real-world projects. Known for excellent time management, quick learning, and a proactive approach to teamwork and independent work.

Technical Skills

- **Languages:** Python, Java, JavaScript, C++
- **Database:** MySQL
- **Web Technologies:** HTML, CSS, JavaScript
- **Tools and Others:** Git/GitHub, VS Code, Jupyter, Android Studio, Google Colab
- **Core:** Data Analytics, AI/ML, Deep Learning

Experience

Data Analyst Intern, SuShiv Technologies — Feb 2026 – Mar 2026

- Worked on **Life Expectancy & Fitness Data Analysis** using Power BI
- Built interactive dashboards to visualize health trends and insights
- Analyzed datasets to identify factors affecting life expectancy

Java Development Intern, Mancers Info Services — Jul 2022 – Aug 2022

- Developed a **Bank Management System** using Java (frontend + backend)
- Designed and executed test cases to improve system reliability
- Collaborated in a team to deliver project milestones

Education

- **2024 – 2027** Bachelor of Engineering in Computer Science, SPPU (CGPA: 8.45)
- **2020 – 2023** Diploma in Computer Engineering, MSBTE (Percentage: 79.37)

Projects

1) **Predictive Customer Analytics & Sales Intelligence (E-Commerce)**
   - Built a data analytics system to predict customer behavior and sales trends
   - Generated insights from customer purchase data to support decisions
2) **Life Expectancy & Fitness Watch Data Analysis**
   - Analyzed fitness and health datasets using Power BI
   - Created dashboards for clear visualization of key insights
3) **Real Estate AI Chatbot**

- Developed chatbot using AI/NLP for property-related queries
- Improved user interaction through intelligent responses

4) **Trader Behavior & Market Sentiment Analysis**
   - Analyzed trading data to identify market sentiment trends
   - Provided insights into investor behavior patterns

Certifications

- Introduction to Generative AI Studio (2026)
- SAP Analytics Cloud – Designing Stories (Intermediate, 2026)
- SAP Analytics Cloud – Data Modeling & Transformation (2026)
- SAP Code Unnati (AI, Python, Data Analysis)
- Data Analyst Internship – SuShiv Technologies
- Nestlé Sustainability E-Learning (2025)

Additional Information

- Strong problem-solving and analytical skills
- Quick learner with adaptability to new technologies
- Effective teamwork and time management
